SUMMARY

Full Stack Web Developer with a degree in General Psychology. Devoted to making positive impacts in technology and therefore people's lives. Professionally known for keen attention to detail, innovation, and determination.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript (jQuery), React.js, MySQL
Applications: Microsoft Office applications

PROJECTS

Belle L'JaRu Skincare | **https://desolate-hamlet-45640.herokuapp.com/** | **https://github.com/jazcr/belle-ljru**
- This simple, yet elegant (artificial) eCommerce site allows users to shop for skin care products. Users may also take a short "Skin Care Quiz" to determine their skin-type. This quiz will recommend products to the user based on their results.
- Scrum Master and Back End Development
- MERN stack – MongoDB, Express, React.js, Node.js, styled using Material UI.

The 4thKind | **https://blog-4thkind.herokuapp.com/** | **https://github.com/jazcr/4thKind**
- Fun, interactive UFO tracking app that gives users the chance to not only share their own experiences with the extraterrestrial but to connect with other believers and experiencers. This blog site contains an interactive map that allows users to pinpoint locations of their sightings and see other users' pinpoints.
- Client-Side Development
- JavaScript, Express, Handlebars, Node.js, Google Maps API and styled with Bulma

Make My Day | https://jazcr.github.io/Make_My_Day_app/ | https://github.com/jazcr/Make_My_Day_app
- A one-stop-shop if you're needing a little pick-me-up throughout the day. This simple app allows users to generate random "Happy GIFs", inspirational quotes, and adorable fox images to help lift their spirits. Users can "like" any GIF, quote, or picture which will be added to their "Favorites" page.
- Giphy API Page
- HTML5, CSS3, JavaScript (jQuery), Server-Side API, styled with MD Bootstrap.

EXPERIENCE

Senior Back-Office Clerk / Help Desk (Remote)   2018 – Current
WSP USA   Broomfield, CO
- Perform manual quality assessments in all areas of company websites after system updates to ensure there are no bugs in the system before the office opens for business.
- Perform daily quality checks on all back-office agents' submitted assignments.
- Persistently track habitual offenders of toll road by studying usage trends and collecting pertinent user data.

EDUCATION

Bootcamp Certificate, Full Stack Web Development: University of Denver, Denver, CO
Six-month technical training environment focused on programming languages and skills such as HTML5, CSS3, JavaScript, jQuery, Express.js, React.js, Node.js, progressive web apps, agile methodology, MongoDB, MySQL, Git, and more.

Associates of Arts Degree, General Psychology: Front Range Community College, Westminster, CO
Developed a general understanding of human emotions, actions, and cognitive functions.
- PTK Honor Society
